

PRESS RELEASE

Omni Táxi Aéreo Begins Operations for BP International

Rio de Janeiro, May 20, 2024 - On May 14th , Omni Táxi Aéreo celebrated the start of operations for BP International. The contract with the multinational of the energy sector includes an S92 aircraft, intended to transport passengers to the Pau Brasil block, in the DS-15 maritime unit, located in the Santos basin.

Guilherme Monteiro, Omni's Commercial Specialist, who led the contract negotiations, expressed enthusiasm for the new project: "As we begin a new commercial relationship with BP International, we hope to contribute with our professional experience so that the air logistics campaign for transporting people is executed safely and efficiently."

About Omni Táxi Aéreo:

Omni Táxi Aéreo was founded in December 2000 on the pillars of safety, teamwork, ethics, business excellence and transparency. It is a leader in offshore air transport in Latin America, offering high capacity to serve customers in the Oil & Gas and Energy market. It offers crew change services, Emergency Medical Services (EMS), Firefighting, Search and Rescue operations, as well as specialized Cargo Transport services in remote and challenging locations. Omni Táxi Aéreo is part of the Omni Helicopters International (OHI) Group.
