

## Press Release

### Omni Táxi Aéreo Transports Five Million Passengers

**Rio de Janeiro, December 08, 2024** – Omni Táxi Aéreo, the leader in Latin America's offshore air transport market, celebrates 22 years of operations by reaching the milestone of transporting five million passengers.

Since its inception in 2001, the company has witnessed growth not only in passenger numbers but also in the size and modernization of its fleet, recognized as one of the most modern and diversified in the sector. Presently, the company annually transports over 500,000 passengers using aircraft of various sizes and models.

Reflecting on the company's journey, CEO Roberto Coimbra, who has been with the company since its first flight, reminisces, "I vividly recall our inaugural flight and securing our initial major contract with just two EC135 aircraft, driven by immense ambition! Today, our aspirations transcend mere air transport. We aim to be a dependable and innovative industry partner, consistently looking ahead and prioritizing safety, efficiency, sustainability, and technological advancement."

Omni Táxi Aéreo is renowned for its commitment to passenger safety through its highly specialized and trained teams. Recently, it was honored by Shell, a global leader in the Oil & Gas sector, with the Shell Safety Leadership Award in the human performance category.

With its sights set on the future, Omni Táxi Aéreo, part of the Omni Helicopters International (OHI) group is determined to continue its trajectory of growth, innovation, and excellence, underpinned by a steadfast commitment to safety, sustainability, and innovation.
